

Community Grant Program

Receive up to \$8,000 to address an environmental health issue in your community! Funding will support one year of research, data analysis, community engagement, citizen science, education, or evaluation related to a local environmental health issue.

Topic areas might include:

- | | |
|--|---|
|  Indoor/Outdoor Air Quality |  Climate Change |
|  Drinking Water Quality |  Healthy Homes |
|  Environmental Justice |  Environmental Pollution |
|  Respiratory Health |  Contaminated Food Sources |

Proposals must make a direct connection between the environment and human health.

Announcement Released - **August 3, 2021**

Grant-writing Webinar - **August, date TBD**

Proposals Due - **September 17, 2021**

Notification of Award - **November 1, 2021**

Open to groups and collaborations across North Carolina, but funds must go to 501 c3 organizations. Preference *may* be given to proposals from Durham, Raleigh, Wilmington, and surrounding communities, or proposals that relate to CHHE research.
