Tulane University School of Public Health and Tropical Medicine invites applications for a tenure track faculty position in the Department of Global Environmental Health Sciences at any level, with rank determined by experience and accomplishments.

The successful candidate will expand the department’s role in research and teaching across the continuum of basic-, clinical-, and population-based environmental health sciences. Applicants should demonstrate strong interest or experience in interdisciplinary environmental public health research and teaching with respect to the following area: climate change and effects on the environment that impact or have the potential to impact environmental public health using controlled experimentation, field methods, and/or modeling approaches. Candidates with expertise in observing, recording, and/or predicting the impacts of climate change on air quality, soils and sediments, water quality, food safety or other aspects of environmental health and the environmental health sciences as those would fall within the broad scope of public health are encouraged to apply.

High ranking candidates would be those with a proven or highly probable track record of research and teaching as outlined above and who demonstrate expertise or capabilities for developing a globally recognized, externally funded research program. In addition to individual research and teaching requirements, the successful candidate is expected to collaborate in research and teaching within the Department of Global Environmental Health Sciences and other departments in the School of Public Health and Tropical Medicine, and Tulane University. We have notable strengths in environmental toxicology, human health risk assessment, disaster management and preparedness, water quality and water health, and occupational safety and health.

Applicants must possess a doctorate in environmental health sciences or relevant field and demonstrate excellence in research and teaching at the undergraduate and graduate levels.

Applications will be accepted online through Interfolio beginning Oct 3, 2016 and continue until the position is filled. Applicants should submit a cover letter, CV, research plan, and contact information for five references:
