

Dear Colleagues,

The Colorado School of Public Health (ColoradoSPH) is accepting applications and nominations for the position of Department Chair for the Department of Environmental and Occupational Health. This is a 12-month, tenure-track, full Professor appointment, with the primary academic appointment to be held at the Colorado School of Public Health (ColoradoSPH), University of Colorado, Anschutz Medical Campus (CU Anschutz).

We seek an innovative leader who will continue the department's evolution, growing its research and educational programs to meet local, regional and global needs. There are abundant opportunities for scientific collaboration across the school's three campuses and with relevant government agencies and industries located in Colorado and the Rocky Mountain region. We seek candidates with experience in both scientific and educational leadership, including development of educational programs that use novel learning technologies. Candidates should have relevant administrative experience in academic or other environments, and a strong commitment to diversity, equity and inclusion.

The ColoradoSPH Department of Environmental and Occupational Health and its faculty engage in the fields of: Climate Change and Health; Emergency Preparedness, Response and Resilience; Environmental Justice; Geospatial Methods; Global Environmental Health; Exposure Science; Total Worker Health, and Environmental/Occupational Epidemiology. The Department's goal is to expand their multi-disciplinary faculty and collective capacity to conduct innovative, impactful research in Environmental and Occupational Health.

The Department has several cutting-edge research and education initiatives, including Impacts of Fossil Fuel Development on Human Health, the University of Colorado Consortium on Climate Change and Health, international research on both communicable and non-communicable diseases, and implementation research in Occupational Health and Safety, including two NIOSH-funded Centers: the Mountain and Plains Education and Research Center (MAP ERC) and the Center for Health Work & Environment, a NIOSH Total Worker Health Center of Excellence. Educational degrees and programs include the MPH (+ global health option) and DrPH degrees in Environmental & Occupational Health, Occupational & Environmental Medicine Residency and Fellowship positions, and Certificates in Total Worker Health and in Public Health Preparedness & Disaster Response.

The ColoradoSPH is a collaborative endeavor involving CU Anschutz, Colorado State University (CSU), and the University of Northern Colorado (UNC). The ColoradoSPH is the first and only accredited school of public health in the Rocky Mountain Region, attracting top tier faculty and students from across the country, and providing vital contributions towards ensuring our region's health and wellbeing. Collaboratively formed in 2008, the ColoradoSPH provides training, innovative research and community service to actively address public health issues including chronic disease, access to healthcare, environmental threats, emerging infectious diseases, and costly injuries.

Located in the Denver metropolitan area, CU Anschutz is the only comprehensive academic health sciences center in Colorado, the largest academic health center in the Rocky Mountain region and one of the newest education, research and patient care facilities in the world. Currently home to 25,000 employees, more than 5,000 degree-seeking students and two nationally recognized hospitals that handle 1.7 million patient visits each year, CU Anschutz trains the health sciences workforce of the future, carries out a broad range of research, and cares for the state's children, adults, and veterans. CU

Anschutz features schools of medicine, pharmacy, dental medicine and public health, a college of nursing and a graduate school. For more information and to submit application materials, please use the following site: <https://cu.taleo.net/careersection/2/jobdetail.ftl?job=19499&lang=en> .
