

Assistant Professor of Sustainable Community Economic Development and Planning

As part of UC Davis' commitment to hire leading research faculty with an outstanding commitment to teaching, research and service, the College of Agricultural and Environmental Sciences, at the University of California announces an Assistant Professor faculty position (9-month in the Department of Human Ecology). Applications are encouraged from candidates with a strong background in any current or emerging area that will fit within our department's disciplinary focus in community and regional development who focus on community economic development and planning in areas that respond to pressing problems and opportunities (e.g., poverty, inequality, prospects for sustainable economies).

This is an academic year (9-month), Assistant Professor tenure-track position with teaching, research, outreach/engagement and service responsibilities and includes the expectation that the appointee will conduct mission-oriented research and outreach/engagement of relevance to the California Agricultural Experiment Station (<https://caes.ucdavis.edu/research/aes>).

As one of the country's leading R1 institutions, UC Davis seeks candidates with exceptional potential for research, teaching, community engagement, and inclusive excellence. The successful candidate will have an accomplished track record (calibrated to career stage) of teaching, research, or service activities, and a clearly articulated vision of how their work at UC Davis will continue to contribute to the University's mission of serving the needs of our diverse state and student population.

Applicants should submit materials via the following website:

<https://recruit.ucdavis.edu>. Additional inquiries can be directed to Jonathan London, Recruitment Advisory Chair, jlondon@ucdavis.edu. The position will remain open until filled but to ensure consideration, applications should be received by October 31, 2026.
